

ScanPro 2000

All-In-One Microfilm Viewer, Scanner-to-PC, Printer

ScanPro 2000

Easy-to-Use, Efficient, Time-Saving Performance

No longer do you have to scan your microform image to see how changes in settings affect scan quality. With ScanPro 2000 TRUE-view™, powerful image adjustment features like enhancement, brightness, contrast, straighten, and cropping can be applied automatically or manually. And, the changes made are seen right on your PC monitor. When satisfied with what you see, that is exactly what you will get when you scan, save, or print.

View All the Information Stored on Your Microforms

The ScanPro 2000 features a single zoom lens which means you don't have to stop your look-ups to change lenses. And, the easy-to-use PowerScan™ software provides many standard features like automatic film advance, focus, exposure control, and optical image rotation so you can complete your look-ups and research quickly and efficiently.

Easy to View, Scan, Print, and Save to Other Media

View the information that you have stored on your fiche, microfilm, micro opaques, and ultra fiche, right on your PC monitor, with live, real-time viewing. When you locate the information that you want, you can complete a high resolution scan in only ONE second with just "a single click".

Customizable Toolbar With Save & Recall Settings

Customize the ScanPro 2000 toolbar and have a reader, a reader printer, a full featured research scanner, or anywhere in between. And, you can save and recall the customized settings with just "a single click".

Kodak

Complete Digital Solution

Scan All of Your Microforms

The Microfilm ScanPro 2000 is the perfect viewer/printer/scanner for all of your microforms, Fiche, Roll Film, Micro Opaques, Micro Books, Ultra Fiche, and Aperture Cards.

And, the Microfilm ScanPro 2000 utilizes combination carriers that remain on the ScanPro when changing film types. These carriers are designed to avoid film scratching, built for public use applications, and feature ball bearing guides to provide exceptional film positioning control.
